

# Community<sup>★</sup> Health Care Systems, Inc.

Ready to receive care from where it's most convenient for you?  
Schedule a telehealth visit by phone.

## SERVICES AVAILABLE

Commonly treated conditions include:

- Allergies
- Urinary Tract Infection
- Pink eye
- Rashes
- Bronchitis
- Sinus infection
- Gout
- Stomach flu
- Strep throat
- Hypertension
- Fever
- Respiratory illness

## Telehealth Visit

Here's how it works:

- You can request and complete a phone visit with one of our Medical Providers
- You can have a phone consult to diagnose non-emergency medical issues.
- During the visit your Provider can electronically prescribe medications, refill your medications, order or other test.
- We can help schedule your visit and set up email and text reminders.

What do you need:

- you must have a standard house phone, cell phone, or smartphone

# COVID-19

If you have recently traveled to an area that has COVID-19 transmission and are experiencing symptoms mentioned below, call ahead to your health care provider before seeking medical care.

## What is it?

- A new respiratory virus first identified in Wuhan, China
- It has the potential to cause severe illness and pneumonia in some people

## How is it spread?

Through the air by coughing and sneezing

Close personal contact, such as touching or shaking hands

Touching an object or surface with the virus on it, then touching your mouth, nose, or eyes

## Who is at risk?

Travelers to and from certain areas are at increased risk as are the close contacts of those who are ill

Current risk to the general public is low

See travel guidance from the Centers for Disease Control and Prevention [www.cdc.gov/coronavirus/2019-ncov/travelers/index.html](http://www.cdc.gov/coronavirus/2019-ncov/travelers/index.html)

## What are the symptoms?

Illnesses can be mild, or in some cases be severe enough to require hospitalization. Symptoms of this respiratory illness primarily include:

Fever

Cough

Shortness of Breath

## How is it prevented?

Similar to prevention of other respiratory illnesses, including the flu:

- **Wash hands** often
- **Avoid touching** eyes, nose, or mouth with unwashed hands
- **Avoid contact** with sick people
- **Stay home** while you are sick; avoid others
- **Cover mouth/nose** with a tissue or sleeve when coughing or sneezing
